

COVID-19 POLICY AND PROCEDURE

If advised by the family of a VET student at your Home School that their child is a confirmed positive COVID-19 case, and the student attended their VET course during their infectious period, it is the responsibility of the Home School VET Coordinator to determine staff and classroom contacts and send relevant notifications to all parties. This will include the Host School VET Coordinator and Trainer. These procedures should be undertaken in conjunction with the Testing, Isolating and Quarantine for school settings information issued by the Department for Education and the Home School's COVID-19 policy.

If the Host School is notified of a student in a VET course confirmed as a positive COVID-19 case and was present in class during their infectious period, it is the responsibility of the Host School VET Coordinator to determine staff and classroom contacts and send relevant notifications to all parties. This will include Home School VET Coordinators of the students in the VET course, Trainer and parents/caregivers. These procedures should be undertaken in conjunction with the Testing, Isolating and Quarantine for school settings information issued by the Department for Education and the Home School's COVID-19 policy.

Please see the below flow chart:
